About This Content

***NOTE* This pack is available in the in-game store under the Marketplace tab. You are strongly recommended to find the product there and make your purchase from within the game.**

In order to be able to use this add-on livery product, you MUST first own the East Coast Main Line London-Peterborough Loco Add-on. If you check in the in-game store it will verify if you own it before you purchase.

The Class 365 is a dual voltage EMU built in the 90's. In the early 90's the Networker family was entering large scale service in the Network South East sector, there had always been a plan to combine the various capabilities of the different units (such as 165/165 and 465/466) in to a single dual voltage unit and this eventually became the Class 365.

Although specified as a dual voltage unit, they have actually never operated in this way as they were only ever built with one system of traction current pick-up.

All Class 365's in service have received a front end cab modification to equip them with cab air conditioning, the design of which gives the loco its nickname of "happy train".

This add-on livery pack presents the unit in its earlier Network South East livery.

You must own the East Coast Main Line London-Peterborough Loco Add-on before you will be able to use this add-on

Title: Class 365 Network South East Add-on Livery

Genre: Simulation

Developer:

Dovetail Games
