Two of the issues with games that I have a hard time tolerating are unresponsive controls and, similarly, invisible walls (or similar, as mentioned later). And this game has both in spades.

The zones are chock-full of inconsistent terrain that will block your movement... sometimes. There are lines of ground that impede progress when they look just like the rest of the terrain. Sometimes they look like something (like a tree root or some other silly non-obstacle) but most of the time they have the same appearance as the surrounding area.

The constant frustration of navigating the terrain was severe enough that I couldn't give the rest of the game a chance. Which is apparently a shame because the rest of the mechanics sound awesome.. Feels weird but is well done and plays like a classic Touhou game, I say it good. This ♥♥♥♥♥in ♥♥♥♥♥♥♥♥♥♥ devs doing really nothing . DO NOT BUY THIS GAME!!!!. I'm recommending this game purely because I love the idea of an interactive musical experience and want to support new and interesting games on VR. I'd love to see more artistic, visual and musical games. That being said, it is a bit nausea inducing because you're floating quickly through the air without being able to control your movement. It's kind of like a floating roller coaster ride. If you could be standing on something in-game, even like a magic carpet ride, I think that might help. In any case, I like the idea and hope the artist makes updates to it, for example by splitting up the scenes so you can watch them individually.. A cute retro platformer about a Fox. What more can you want?

PROS:

- The puzzles
- The soundtrack
- The designs
- Price Wise + Includes soundtrack!
- 3 Different Characters to unlock

CONS:

- Short gameplay
- There are a few bugs
- You die quite quick and easy
- No controls on the menu
- . def a fun game cant wait for the new patches :)

I want to be upfront right now.

The only reason I am NOT RECOMMENDING this game is due to a lack of online multiplayer and a lack of single player mode. This is a Local Multiplayer Only game.

This is a fun game with some great characters. But without any kind of Single Player Mode for those who don't have friends who can come over to their house often, it's hard to recommend this.. It's a good stat for a Serie. It can't compete with Dirt but it's fun and diverse enough to keep you busy for some time. Driving model is not realistic but not over simplified.. Great game, to idle for cards.. I got 2 Foil cards playing this
gg

10 Foil Cards/ 10 Foil Cards. It is fun :D. I will not recommend this game until you fix teaming on solos. I'm not playing the game until there are no teams in solos.. Nice platforming, fun bosses, and a FORGIVABLE GAME.

Nice turn for the "I Wanna" series. Usually they are unforgiving and terribly designed.

. Just watch again :D
